GOOD ADVICE.
Here's a bit of timely and
straight truth from the Miami
Metropolis: "The mosquito trans-
mits disease and so does the house-
fly. War has been declared on
both. Kill them wherever and
whenever you can. This old say-
ing, "Harm not a fly," has been
long since revolted. Get busy.
The Tribune passes the hint along
to the people of Tampa. "Get
busy" on the mosquito and the fly.
—Tampa Tribune.

Neuralgia and Rheumatic Pains yield
quickly to the influence of Dr. Miller
Anti-Pain Pills. No bad after-effects.

PRELIMINARY SURVEY OF MOSQUITO INLET

New Smyrna, April 8.—United
States Engineers Capt. Spaulding
and Capt. Bie were in the city
yesterday and today for the pur-
pose of gathering information for
their preliminary survey of Mos-
quito inlet and the river up to New
Smyrna. Capt. Bie arrived here
Tuesday and yesterday morning
he, in company with fifteen of the
representative business men of the
city, went down the river on Capt.
Mosler's launch Florence II.

Capt. Bie made soundings in
different parts of the river and on
the bar.

At one place in the river a depth
of only nine feet was found. But
the usual depth was above fifteen
feet. At the bar no sounding was
under nine feet. Last night there
was an informal meeting of the citi-
zens with the engineers at Alba
Court hotel. At this meeting the
committee appointed a few days
ago at a meeting of the board of
trade to gather statistics as to the
present and future prospects for
the shipment of freight from this
point made its report. The engi-
neers asked many questions and much
valuable information was elicited.
A great deal of interest was mani-
fested in the meeting by the citizens
and all are very anxious to have a
favorable report made by the
engineers.

BIG REALTY DEAL.
A real estate deal was consummated
here last week which will likely
mean a good deal for the future
growth and beauty of the city.
Mr. William Laws sold an interest
in his lots in south side of town to
Mr. Levy and together they have
bought out J. P. Turner's lots and
another tract south of that and it is
understood they will spend a large
sum in improvements before offer-
ing the lots for sale. Among these
improvements is a sea wall along
the river front for over 1,000 feet,
which the city council has agreed
to pay one-third the cost. There
is to be a hotel built on the prop-
erty and other valuable improve-
ments.

Cabbage, celery and beans are
now being shipped from here in car
lots and the crop is very fine.

WORTHY OF CONFIDENCE.

AN ORDER BACKED UP BY ONE OF
THE MOST REPUTABLE COM-
MERCE IN DELAND.

We will either cure you of con-
stipation or pay for all the medi-
cine used during the trial. You
pay us nothing if we fail. That's
a mighty broad statement and we
mean every word of it. We will
back it up with our own personal
reputation, too. Could anything
be more fair and secure for you?

The most scientific, common
sense treatment is Rexall Orderlies.
Their active principle is a very re-
cent scientific discovery that is
colorless, colorless and tasteless,
very pronounced, gentle and pleas-
ant in its action, and particularly
agreeable in every way. This in-
gredient does not cause any diar-
rhea, nausea, flatulence or griping.
Rexall Orderlies are as pleasant to
take as candy and are particularly
good for children and delicate
persons.

If you suffer from chronic or
habitual constipation, or the asso-
ciate or dependent chronic ailments,
we urge you to try Rexall Orderlies
at our risk. Remember, you can
only get them at our stores. G.
W. Fisher, Druggist, DeLand, Fla.

PROPOSAL PARTIES

"Proposal Parties" are the latest
fad in Pensacola society, according
to the Journal's society news col-
umn.

The scheme is to give a course
dinner, each course served at a
different table where there is seated
a girl.

The young men present are sup-
posed to travel from table to table
to each course and while there pro-
pose to the girl. At the end of the
dinner the scores are read and the
fun comes in when it is revealed
how many girls have agreed to
marry each man.

At one such party, it is said, one
young man had secured the con-
sent of all but one of the girls and
that girl had not promised any one.

It sounds funny and no doubt it
is funny, but looks rather com-
promising so far as the girls are con-

cerned and the game is calculated
to swell the head of the young man
securing consent to his proposals
from all the girls in the house.

NIAGARA FROZEN FROM BANK TO BANK

Buffalo, N. Y., April 11.—The
voice of Niagara was again mute
today for the second time in the
memory of man. The first time
was late in February when, follow-
ing a severe northerly blow, the
falls ran dry. Now, following a
severe southwester, the river is
frozen solid from bank to bank.

On Wednesday of last week the
worst gale of the season and the
most violent in the history of the
weather bureau for April was re-
ported. The solid ice fields of
Lake Erie were churned from end to
end and piled in a huge conglom-
erate mass at the lower end of the lake.

At Niagara Falls there had been
a heavy ice bridge in the pool below
the cataract since the middle of
winter. Under the impact of the
mass of ice from the lake above
and the added floods brought
down by the wind, the bridge gave
way and began to surge down the
rapids, but before it could win free-
dom in the ample waters of Lake
Ontario, the wind shifted again to
the north. Instantly the moving
floods packed at the mouth of the
river. Each instant of cold con-
gealed the pack more solidly and
each hour brought added pressure
from above.

Unable to escape by its natural
channels the level of the river rose
by leaps and bounds. The highest
flood level recorded from previous
years is twenty-eight feet above
the normal. Friday night the river
was forty feet above normal.

Conservative estimates place
the damage at \$1,000,000.

All estimates of ultimate damage
are conditioned by what the weath-
er may have in store. The best
that can be hoped for is a succession
of calm, warm days. Then the ice
will melt gradually and subside
bit by bit. For the moment the
upper reaches of the river are run-
ning clear, but as far as eye can see
the white mantle of frost blankets
the lake. If that great mass should
be driven down on to the jam be-
low, the damage would be in-
conceivable.

SO MUCH ALIKE.

A curious story went the rounds some
little time ago about a lovely foreigner,
one of those verbal slips gave King Ed-
ward occasion for a hearty laugh. A
very lively personage, with a delightful
accent, she made such a favorable im-
pression upon the king that he asked her
to be his partner at bridge. "But, sir,"
she said, "I really don't know how to
play." The king would take no denial,
however, and she became rather em-
barrassed. "Assure you, sir," she said,
"I don't know the difference between a
king and a knave." There was an
awkward silence, and then she realized
what she had said, and was covered with
confusion. The king, of course, laughed
it off, and now tells the story with gusto.

It may be true that the course of
true love never runs smooth, but
isn't it true that we really enjoy the
bumps?

If ever we get rich enough to es-
tablish a pension fund the first ones
we will provide for will be the wives
of workmen who manage to
make an average of \$7 a week feed
and clothe and educate a half-
dozen or more children. Such
women are the greatest financiers
in the world.

Mississippi has a law under which
any town which desires to try the
commission plan can do so without
asking further leave of the State—
Illinois has ordered an investiga-
tion into the workings of the com-

How's This.

We offer One Hundred Dollars Re-
ward for any case of Catarrh that can-
not be cured by Hall's Catarrh Cure.

monials sent free. Price, 75c. per bottle
told by all Druggists.

Take Hall's Family Pills for constipa-
tion.

mission plan. After all it is a
question of the right man—when
you get him it is well to keep him,
and yet it is something of a hard-
ship to make a man serve the public
when he is capable of serving him-
self.—Times Union.

DO IT NOW.

If you've a cheering word to give,
Don't wait until tomorrow.
Now is the time to give that word.
And cheer some heart in sorrow.
There's many a sad and broken heart
Cared by those words unspoken.
Then do not wait but give today
The cheering words or token.

This world would be a better world,
There'd be less sin and sorrow.
Heath and all would do today
The good they do tomorrow.
Then let us not think all of self.
But have a thought for others.
And give today the needed cheer
Unto our weary brothers.

SWAT THE HOUSE FLY

Swat the housefly! And, as
soon as he makes his appearance,
swat the mosquito. Consider the
housefly your deadly enemy and
make war on the pest.—St. Peter-
burg Independent.
